CAREER OBJECTIVE

Full-Stack Developer with hands-on experience building scalable web applications, real-time systems, and RESTful APIs using the Node.js/Express ecosystem. Strong foundation in backend development, database design, and clean, maintainable code.

TECHNICAL SKILLS

Languages: JavaScript(ES6+), C++, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive UI, Component-Based Architecture

Backend: Node.js, Express.js, REST API Development, JWT Authentication, NextAuth.js, Async Programming (Promises, async/await), JSON

Databases: PostgreSQL, MySQL, MongoDB, Prisma ORM, Database Schema Design, Query Optimization

Real-Time Systems: WebSockets, Socket.IO, WebRTC

Cloud & DevOps: Vercel, Render, Supabase, Git, GitHub, CI/CD Deployment

PROJECTS

WhiteRoom – Encrypted Real-Time Collaboration Platform

Dec 2025 – Apr 2026

- Built a privacy-first collaborative workspace using **WebRTC** encrypted peer-to-peer communication and **AES-GCM + RSA** key exchange, ensuring zero plaintext data on servers.
- Implemented real-time collaboration using **Yjs CRDT** with offline persistence and automatic synchronization.
- Integrated video conferencing, whiteboard, and AI-powered document summarization; covered full development lifecycle from design to deployment.
- **Technologies:** Next.js, Node.js, WebRTC, Socket.IO, Yjs, Web Crypto API
- **GitHub:** github.com/deepak-sh-07/whiteroom

DataSense AI – Automated Data Dictionary Generator

Feb 2026

- Built a multi-agent AI system with Next.js, Node.js, and LLM APIs (OpenAI/Claude) to generate structured data dictionaries from CSV and database files in under 30 seconds.
- Implemented PII detection, GDPR risk flagging, and automated metadata extraction to improve data governance workflows.
- **Top 7 Rank – HackFest 2.0** (National-Level Hackathon).
- **Technologies:** Next.js, Node.js, REST APIs, AI APIs, CSV Parsing
- **GitHub:** github.com/upasanaprabhakar/datasense_ai

MeshBeat – Real-Time Multi-Device Audio Sync Platform

Sept 2025 – Oct 2025

- Developed a real-time audio synchronization system using Socket.IO and WebSockets achieving **95% playback timing accuracy**.
- Designed PostgreSQL database schema and implemented authentication using NextAuth.js.
- Deployed production-ready application on Vercel and Render; collaborated in agile sprints with cloud storage integration.
- **Technologies:** Next.js, Node.js, PostgreSQL, Prisma, Socket.IO
- **GitHub:** github.com/deepak-sh-07/Meshbeat

EDUCATION

Rayat Bahra University, Mohali, Punjab

Expected Graduation: May 2027

- **B.Tech in Computer Science and Engineering** — 79%

The Century School

Year of Completion: 2022

- **Class 12 (CBSE)** — 74%

Doon International School

Year of Completion: 2020

- **Class 10 (CBSE)** — 87%

CERTIFICATIONS & ACHIEVEMENTS

800+ DSA Problems Solved: Solved 750+ problems across LeetCode and GeeksforGeeks, strengthening data structures, algorithms, and problem-solving skills. **LeetCode:** leetcode.com/u/_deepak123/

HackFest 2.0 2026 – Top 7 Rank: National-level hackathon organized by GDG Cloud New Delhi and Turgon AI.

HackFest 2025 – Top 18 Rank: National-level hackathon organized by GDG Cloud New Delhi.
